TECHNOLOGY MANAGEMENT

APPLIED BUSINESS & TECHNOLOGY DEGREE

About this degree option

The applied business and technology degree is a comprehensive program, taking your marketability to the next level. This degree option connects previous skills with proficiencies in business, such as leadership, communication, accounting, marketing and project management. Bridging your interests with relevant business experience elevates you to stand out from the rest.

Why these degree options?

K-State Salina offers a variety of advantages, including:

- Classes can be taken on site, online or both.
- 8- and 16-week formats.
- Transfer up to 60 credits to get a jump-start on your degree.
- Students can choose an established focus area: fire science, veterinary technician, aviation maintenance, wind energy or computer systems, but the possibilities are endless.

Careers

Career options for applied business and technology graduates include, but are not limited to:

- Program/Project Manager
- Database Administrator
- Operations Manager
- Quality Supervisor
- Sales Representative
- Systems Analyst
- Training Specialist

Accreditation

We take our reputation seriously. Accreditation validates the quality of an institution as a whole, offering evaluated measurements of everything from academic offerings, governance, administration, mission, finances and resources. Kansas State University has been continuously accredited by the Higher Learning Commission (HLC) since 1916.

Transfers

At K-State Salina, you can transfer up to 60 qualifying credit hours to help you get your next degree. If you've already earned an associate degree from one of our partner institutions, you may be eligible to apply previously earned credits when enrolling in a related bachelor's degree option. We work with students every day to make the most of transfer credits within K-State Salina programs to help make earning that next degree more achievable. Your hard work matters. We want to help you make the most of it.

AN AEROSPACE & TECHNOLOGY EDUCATION IS:

INNOVATIVE LEARNING:

Learning by doing, through hands-on projects, lab time and in-the-field training.

REAL-WORLD EXPERIENCE:

Exploring innovations in your field through research, practicum and internship opportunities.

INDUSTRY CONNECTIONS:

Building relationships with industry members and gaining insight into your future career.

STUDENT-FOCUSED:

Faculty are focused on your personalized experience, working alongside you in the lab and classroom.
